Seasonal Influenza in Pregnancy Study 05/16

Data Collection Form - CONTROL

Instructions for selecting control women:

1. Identify the date and time of delivery for the woman you have reported who has been hospitalised with confirmed influenza. This woman is the CASE.
2. From the delivery suite/operating theatre records identify the two pregnant women delivering immediately **BEFORE** the woman who has had influenza (these women should NOT have had influenza). These women will act as the CONTROLS.
3. Please retrieve the hospital case notes for these control women from medical records.
4. Please complete a Control Data Collection Form (this form) for each of the women you have identified as the controls.
5. You will also have been sent a Case Data Collection Form. Please complete the case form with information about the woman who has had influenza.
